

Using the Sketch Engine for corpus-based discourse analysis

Workshop Programme

Place: CLAVIER 13, Modena
Date: Wednesday 6th November 2013
Time: 9.30-12.30
Trainer: Adam Kilgarriff

The workshop will give participants hands-on experience of using a leading corpus tool, the Sketch Engine, in Italian, English, or a choice of other languages, for discourse analysis. We shall discuss and explore various ways that corpus tools might be used in your research, and how you might collect the right corpus for your purposes, and set it up in the Sketch Engine.

9.30	Introduction to the Sketch Engine
9.55	Getting hands-on <i>fruit</i> practical
10.20	Lexical Analysis Demo and practical
11.00	Break
11.15	Corpora for all seasons designed corpora, large web corpora, instant corpora
11.35	Build-your-own corpus Practical
11.55	Keywords Demo, discussion, and practical
12.15	How to apply: discussion Rounding up
12.30	End
